IMPORTANT ACCOUNT INFORMATION

Reminder about effect of pending debit card transactions on your account

For each debit card transaction, we place an authorization hold on the "pending" transaction until the merchant sends the final payment instruction to the bank. We receive final payment instructions for most transactions within one to two business days, but we generally must release the authorization hold after three business days. If a merchant does not send the final payment instruction within that timeframe, we must honor the transaction when the final payment instruction is received. While the authorization hold is in effect, these transactions reduce your available balance. The transaction will be paid when we receive it for payment. If transactions are presented for payment when your account has an insufficient available balance, you may be charged overdraft and/or insufficient fund (NSF) fees on those transactions. The bank will assess no more than three (3) \$35 overdraft and/or NSF fees per day.

If you have enrolled in the optional Debit Card Overdraft Service, the bank may authorize your ATM and one-time debit card transactions into overdraft when you have insufficient funds in your checking account. Remember, Debit Card Overdraft Service is optional; you can change your enrollment status at any time through online banking, at our ATMs, or by talking to a branch or phone banker.

To help you manage your account balance and avoid overdrafts, we recently enhanced our balance alert by including a new automatic "zero balance" feature for customers who are enrolled in online banking. When you make a purchase or the bank receives incoming transactions such as checks or recurring automatic payments that bring your account balance, as reflected in the bank's records, to zero or negative, we will send an alert to your email. You may also request the alert be sent to you via a text message or push message to any cell phone you specify. If you make a covering deposit or transfer before we start our nightly processing of transactions, you can avoid overdraft and NSF fees. You can also easily check your account balance via online or mobile banking prior to making a purchase to avoid initiating transactions that result in overdraft or NSF fees.
